## ***Solutions for Motion Control***

### ***Mechanical Motion Technologies***

Axitrol Automation Co., LLC is a supplier of top quality mechanical motion products and services providing a wide range of solutions for your motion control applications. The following is a listing of some of the products we have to offer:

- Profile linear guide rail and bearings
- Round shaft linear guide rail and bearings
- Precision Ball Screw Assemblies
- Linear Motion Systems
- Cartesian Gantry Robot Components
- Power transmission components such as gear reducers and couplings
- Rotary and Parallel indexers
- Cam driven indexing and machine chassis systems
- Part handling automation components such as grippers, robot tool changers, vacuum cups, linear cylinders, modular gripper assemblies, etc.
- Cable & Hose Carrier Systems

### ***Electrical Drives & Control Technologies***

Axitrol Automation Co., LLC is also a supplier of top quality electrical control products and services providing a wide range of solutions for your motion control applications. The following is a list of some of the products we have to offer:

- AC Motors and Variable Speed Drives
- AC Servo Motors, Drives and Controllers
- Stepper Motors and Drives
- Operator Interface Panels
- Light Curtains
- Safety Mats
- Safety Switches
- Proximity Sensors
- Mechanical Limit Switches
- Signaling Devices, Stack Lights
- Sensor Cord Sets and Connectors
- Distribution Boxes

### ***Other Products and Services Offered***

- Application Engineering & Sizing
- CAD Drawings
- Control System Integration
- Fluid Power System Design (Hydraulics & Pneumatics)
- Competitive Pricing
- Quick Response Time
- Stock
